

# URINAL BIO BLOCK

## Biological Urinal Blocks

Biological Urinal Blocks has been specially formulated to reduce odor problem and blockages in urinals. New strains of bacteria have been introduced to improve cleaning efficacy to remove fats, uric-scale and solids that build up in urinal traps and pipe-work causing odors and blockages. Citrus perfumed and water soluble, Bio Blocks efficiently eradicate the source of this problem, providing substantial savings on both washroom maintenance and water bills as the need for constant flushing and more regular cleaning is reduced.

Biological Urinal Blocks contain a selection of non-pathogenic micro-organisms and blend of cleaning and water-softening agents, a special odor-blocking perfume & color.

### Benefits & Advantages:

- Biodegradable. Removes the cause of odor.
- Suitable for all types of urinals and troughs including Stainless steel, porcelain and ceramic.
- Prevents blocked traps and pipes. Saves on water bills. Cleans and Freshens.
- Contains odor neutralizing perfume.

### Product Characteristics:

- Bacterial Count : 1 X 10<sup>8</sup>
- pH range : 7.0 to 8.0
- Appearance : Blue Block
- Fragrance : Citrus

### Directions for Use:

- Place one block in each urinal.
- Space every 50 cm in trough urinals.
- Replace when the block has dissolved for maximum efficacy.
